<p>Comments received</p>	<p>"This improvement in FOS requirements is very much appreciated. Particularly as far as fishery's management new requirements are concerned"</p>
	<p>"Proposed changes are OK but could be difficult to apply on site. I suggest a testing period."</p>
	<p>"Please develop a manual for better auditors' interpretation"</p>
	<p>"Well done. We agree with changes!"</p>
	<p>"Kann ich das nächste Mal empfehlen, uns eine Checkliste auf Deutsch zur Verfügung zu stellen. Vielen Dank"</p>
	<p>"Dear Friend of the Sea team, this new checklist represent a major improvement. Congratulations"</p>
	<p>"3.2 May I suggest that in the next year FOS further reduces the allowed level of discards"</p>
	<p>"We fully agree with your Non-Entangling FADs requirements. Much better than boycott. Please be specific in the manual regarding auditor's verification of this requirement"</p>
	<p>"Concordiamo con le modifiche"</p>
	<p>"8.1.1 might be difficult to be verified. But congratulation for including Social Accountability."</p>

Comments received	Affected tuna fisheries felt the time was mature to introduce this requirement. Some felt it was too generic, others believed it had to be kept generic.
	Major NGOs appreciated the introduction of this new requirement as it meets at least in part their campaigns objectives.

Date of revision: 01/05/2015 Standard: Wild – Tuna Voting results: 8/10 Date of approval: 01/07/2015	
Comments received	Certification and Accreditation Bodies appreciated the proposed changes, since it reduces subjectivity.
	Friend of the Sea already approved companies also trusted the change would have been positive and feasible.
