- Date:

To obtain certification, the tourist facility must provide evidence of compliance with at least one of the proposed options for each requirement.

| N° | Requirement | Yes/No/ N.A. | Comments |
|-----|---|-----------------|----------|
| 1 | Development of the site | | |
| 1.1 | If the tourist facility is built on critical habitats (e.g. coastline, wetlands, forests, etc.), the development plan has passed an environmental impact assessment or equivalent. | | |
| 1.2 | Alternatively, if the tourist facility has been built on critical habitats, the tourist facility makes an impact on its biodiversity and compensates for its impact by means of Friend of the Sea / Friend of the Earth-certified biodiversity offsets. | | |
| 1.3 | The tourism facility was not built on critical habitats. | | |

| 2 | Organization, Reporting, and M | Management |
|-----|--|------------|
| 2.1 | The tourist facility has a written environmental and responsible tourism policy document that includes at least the points considered in this standard. | |
| 2.2 | The tourist facility has designated a staff member responsible for the implementation of the environmental and responsible tourism policy. | |
| 2.3 | The tourist facility produces, no later than 12 months after certification, a report on its performance in implementing its environmental and responsible tourism policy and the requirements of this standard. | |
| 3 | Energy management | , |
| 3.1 | The tourist facility has committed to an annual improvement in energy efficiency. | |
| 3.2 | The tourist facility has energy-efficient electrical systems installed in at least 50 % of the areas and plans to install the remaining areas within 12 months of certification. | |
| 3.3 | The tourist facility trains employees to reduce energy consumption. | |
| 4 | Water resource management | |
| 4.1 | The tourist facility has installed water- saving devices to reduce water consumption in at least 50 % of the hotel's areas and has a written plan to equip the remaining areas within 12 months of certification. | |

| 4.2 | The tourist facility has a towel reuse/bed linen change program to save water. | |
|-----|---|--|
| 4.3 | The tourist facility trains employees to reduce water consumption. | |
| 5 | Waste management | |
| 5.1 | The tourist facility has a waste management plan to reduce and eliminate waste production. | |
| 5.2 | The tourist facility collects recyclable items (cardboard, plastic, glass, metals, food waste, etc.) separately and disposes of them according to national regulations. | |
| 5.3 | The tourist facility trains employees to reduce waste. | |
| 6 | Furniture | |
| 6.1 | The tourist facility purchases and uses environmentally friendly cleaning materials for at least 50 % of its purchases and has a plan in place to procure 100 % low-impact by the end of the 12 months following certification. | |
| 6.2 | The tourist facility purchases certified sustainable or organic food products for at least 50 % of its purchases and has a plan in place to achieve a 100 % lower impact by the end of the 12 months following certification. | |
| 6.3 | The tourist facility purchases certified sustainable or organic staff uniforms for at least 50 % of its purchases and has a plan in place to achieve a 100 % lower impact by the end of the 12 months following certification. | |

| 6.4 | The tourist facility generally purchases products and services that have a lower impact on the environment than the average available on the market and aims to achieve a 100 % lower impact by the end of the three years following certification. | |
|-----|---|--|
| 7 | Guest Awareness | |
| 7.1 | The tourist facility informs its guests on how to reduce the environmental impact during their stay. | |
| 7.2 | The tourist facility informs guests about local biodiversity and how they can support its conservation. | |
| 8 | Community support | |
| 8.1 | The tourist facility supports local communities in need and/or local traditional customs. | |
| 8.2 | The tourist facility supports biodiversity and animal welfare. | |
| 8.3 | The tourist facility supports local biodiversity conservation projects. | |
| 8.4 | The tourist facility does not keep animals in captivity. | |
| 9 | Sustainable sport | |
| 9.1 | The tourist facility undertakes to certify Friend of the Sea/Friend of the Earth Sustainable its sports activities if relevant at the latest by the end of the three years following certification. | |

| 9.2 | An impact reduction plan is in place to | |
|-----|--|--|
| | reduce the impact of its sports activities | |
| | on an annual basis. | |
| | | |

Notes from the Auditor

Conclusions

The auditor must select one of the following fields:

- ☐ The tourist facility **complies** with the requirements of this standard
- ☐ The tourist facility **doesn't comply** with the requirements of this standard
